Going deeper about the European Green Deal Call for potential applicants

BE NCP webinar – 11 September 2020
Welcome to our webinar! Some housekeeping rules

1. Please send only **content questions** through **Questions section** of GotoWebinar, they will be handled during the Q&A session. If you encounter a technical issue, you can use the Chat section.

2. Do not unmute your microphone ;-)

3. **The webinar will not be recorded**… but don’t worry, **the presentations will be posted online** on [http://www.h2020-info-sessions.be/event/european-green-deal-webinars/](http://www.h2020-info-sessions.be/event/european-green-deal-webinars/)
Going deeper about the European Green Deal Call for potential applicants

Agenda

1. Welcome  
   Natacha WITTORSKI (NCP FNRS)

2. The Horizon 2020 European Green Deal call – design and policy background  
   Sven SCHADE (European Commission)

3. Questions & Answers

4. Green Deal during the R&I days (https://research-innovation-days.ec.europa.eu/programme)  
   Sven SCHADE (European Commission)

5. How to find partners?  
   Camille LEPINAY (NCP Brussels & European Enterprise Network)
“The Horizon 2020 European Green Deal call – design and policy background”

Presentation to Belgian National Contact Points networks – 11 September 2020

Sven Schade, European Commission
DG Research and Innovation
Strategic Planning, Co-creation Horizon Europe
We are living the environmental & social changes
Challenges 2019

A more diverse European Parliament

Ever faster technology development

Europe’s place in a changing world order
The European Green Deal

Transforming the EU’s economy for a sustainable future

- Increasing the EU’s Climate ambition for 2030 and 2050
- Supplying clean, affordable and secure energy
- Mobilising industry for a clean and circular economy
- Building and renovating in an energy and resource efficient way

And leaving no one behind

- A zero pollution ambition for a toxic-free environment
- Preserving and restoring ecosystems and biodiversity
- From ‘Farm to Fork’: a fair, healthy and environmentally friendly food system
- Accelerating the shift to sustainable and smart mobility

Our European Growth Strategy
U. v.d. Leyen

The EU as a global leader

Designing a set of deeply transformative policies

A European Climate Pact

Presented in 2nd week after taking office
The core policies for the Green Deal
Annual sustainable growth strategy: A new economic narrative

Main tool for setting the general economic and employment priorities for the EU at the beginning of each European Semester cycle

A rebooted growth model: focus on a sustainable and inclusive economic model that will put people and climate first
The core policies for the Green Deal

17-12-19 Annual Sustainable Growth Strategy 2020

14-1-20 Sustainable Europe Investment Plan – European Green Deal Investment Plan

Investment Plan

- Proposal for a just transition mechanism
- Mobilising 1 trillion investments over 10 years for sustainability transition
- EIB as European ‘Climate Bank’
- Announces Horizon 2020 Green Deal Call (€1bn)
The core policies for the Green Deal – Climate law

17-12-19 Annual Sustainable Growth Strategy 2020

14-1-20 Sustainable Europe Investment Plan – European Green Deal Investment Plan
   A strong social Europe for just transitions (Just transition fund)

4-3-20 European Climate Law
   https://ec.europa.eu/clima/policies/eu-climate-action/law_en ....

The climate law proposal

- to write into a law the goal of EU's climate neutrality by 2050 through all policies, in a socially-fair and cost-efficient manner
- a new EU target for 2030 greenhouse gas emissions reductions
- a 2030-2050 EU-wide trajectory for greenhouse gas emission reductions (industries: see also ‘A clean planet for all’ – EU long term climate strategy COM(2018)773)
- to develop and implement adaptation strategies to strengthen resilience and reduce vulnerability to the effects of climate change
The core policies for the Green Deal

17-12-19 Annual Sustainable Growth Strategy 2020

14-1-20 Sustainable Europe Investment Plan – European Green Deal Investment Plan
A strong social Europe for just transitions (Just transition fund)

4-3-20 European Climate Law

10-3-20 A New Industrial Strategy for Europe
An SME Strategy for a sustainable and digital Europe
A new Circular Economy Action Plan
https://ec.europa.eu/environment/circular-economy/index_en.htm ....

---

Circular economy action plan

- 35 proposed measures, mainly legislative
- Core sectors: Electronics and ICT, textiles, plastics, food & packaging, waste

Product policy framework (for example)
- Legislative and non-legislative measures establishing a new “right to repair”
- Legislative proposal on substantiating green claims

Skills development for a circular economy transition
A sudden shift of attention leads to delays

17-12-19 Annual Sustainable Growth Strategy 2020

14-1-20 Sustainable Europe Investment Plan – European Green Deal Investment Plan
A strong social Europe for just transitions (Just transition fund)

4-3-20 European Climate Law

10-3-20 A New Industrial Strategy for Europe
An SME Strategy for a sustainable and digital Europe
A new Circular Economy Action Plan

(…)

20-5-20 Farm2Fork’ & ‘Biodiversity Strategy’
https://ec.europa.eu/environment/nature/biodiversity/strategy/index_en.htm
Biodiversity

Establish protected areas for at least:

- 30% of land in Europe
- 30% of sea in Europe

Restore degraded ecosystems at land and sea:

- Increasing organic farming and biodiversity-rich landscape features on agricultural land
- Halting and reversing the decline of pollinators
- Restoring at least 25,000 km of EU rivers to a free-flowing state
- Reducing the use and risk of pesticides by 50% by 2030
- Planting 3 billion trees by 2030

Farm2Fork

ANNEX ......................................................... 21
The core policies for the Green Deal

17-12-19 Annual Sustainable Growth Strategy 2020

(..)

8-7-20 A hydrogen strategy for a climate-neutral Europe, see https://ec.europa.eu/energy/topics/energy-system-integration/hydrogen_en

Still to follow: Chemicals strategy

Hydrogen Strategy

The path towards a European hydrogen eco-system step by step:

From now to 2024, we will support the installation of at least 6GW of renewable hydrogen electrolyser in the EU, and the production of up to 1 million tonnes of renewable hydrogen.

From 2025 to 2030, hydrogen needs to become an intrinsic part of our integrated energy system, with at least 40GW of renewable hydrogen electrolyser and the production of up to 10 million tonnes of renewable hydrogen in the EU.

From 2030 onwards, renewable hydrogen will be deployed at a large scale across all hard-to-decarbonise sectors.
COVID-19 crisis recovery: Hottest topic in town. ‘Back to normal’ or ‘Renewal & jump forward’?

Green Deal will be ‘our motor for the recovery’, von der Leyen says

Proposals for Revised proposal for MFF 2021-27 €1100 billion

Financiers join EU ‘green recovery alliance’

REMINDEiran: ONLINE POLICY BRIEFING
Wednesday 6 May 2020
11.00-12.00

Can the corona virus crisis be a catalyst for climate action?

WEBINAR

Overcoming Covid-19 crises by building a clean and resilient Europe*

But how?
The Horizon 2020 Call in support of the European Green Deal
The European Green Deal Call

Area 1: Increasing Climate Ambition: Cross sectoral challenges
Area 2: Clean, affordable and secure energy
Area 3: Industry for a clean and circular economy
Area 4: Energy and resource efficient buildings
Area 5: Sustainable and smart mobility
Area 6: Farm to Fork
Area 7: Ecosystems and Biodiversity
Area 8: Zero-pollution, toxic free environment
Area 9: Strengthening our knowledge in support of the European Green Deal
Area 10: Empowering citizens for the transition towards a climate neutral, sustainable Europe
Some specific issues raised – I

- Research, Innovation and the Green Deal – how do they relate?
- Will there be other ‘Green Deal Calls’?
  - Deep system transformations will be required over become Climate neutral and avoid break-down of ecosystem (services). Not science and technology alone will be the solution – but ‘system’s innovation’. -> ‘Horizon’ is the R&I component – synergies with policies and other programmes
  - Horizon Europe will start 2021: ‘sustainability and digital transitions’ are the ‘Leitmotiv’ for large parts of the programme
  - ‘Location based innovation’ (see circular economy topic, ecosystem restoration, a.o.)— System’ innovation happens in deep local / regional value chains. European level R&I is not the best tool -> Synergies with ‘next generation EU’ recovery and resilience programme (similar timeline!)
Some specific issues raised – II

• Role of ‘small enterprises’ and ‘financial innovation’?
  ➢ Not an SME specific call (May 2021 cut-off European Innovation Council (SME instrument)- €350mio exclusively for ‘Green Deal related’ ideas)
    ➢ B4plastics (Maasmechelen) ‘Strongest – degradable bioplastics’ €1.5mio
    ➢ Greater than SA (Brussels) ‘Deep learning AI driver influence system’ €1.9mio
  ➢ ‘Financial innovation’ is part of system’s transformation
    ➢ See: ‘taxonomy of sustainable investment’ – sustainable finance / soft market regulation
    ➢ See: making EIB the ‘European climate bank’ – directing EIB investment
    ➢ Here: Experimenting ‘innovative subsidy / incentive / support schemes’ for example for ‘renovation’, ‘ecosystem (services) restoration’. Very welcome to include these aspects in proposals for the relevant topics. (Same for ‘social impact’ / ‘social innovation’)
Some specific issues raised – III

• Combination of funding sources?
• Depreciation rules?

➢ I am not a specialist in the precise rules and their application – principles which allow to understand the approach

➢ (1) ‘No profit from a grant’ & (2) ‘project has total cost’ and a part of them are ‘eligible costs’

➢ All costs have to be documented according to usual accounting practice of the entity – only those costs can become eligible (and supported by the grant). This principle is applied to depreciation as well (but under certain conditions the ‘lifetime’ of the equipment might be reduced to the lifetime of the project) -> See ‘Model grant agreement’

➢ Combination of funding sources: No single item financed by 2 EU-sources – Total revenues generated (subsidies, incomes) must not be larger than total project cost.

➢ Example: Ecosystem services restoration requires purchase of land (not eligible but supported by a national env. fund) and works & a flock of sheep (eligible eventually also in env.fund). Revenue is generated from milk & meat. As long as [subsidies+revenues ≤ eligible costs+non-eligible costs] no problem.
The Green Deal Call Topics – 1

Area 1: Increasing climate ambition

1.1 Preventing and Fighting Wildfires
€75million
• Interesting interlinked sub-topics from technology for aircrafts to forest management

1.2 Towards climate-neutral and socially innovative cities
€53million
• Majority re-granting to cities!

1.3 Climate-resilient Innovation Packages for EU regions
€45million
• Transition roadmaps and solutions

Area 2 - Clean, affordable and secure energy

2.1 Innovative land-based and offshore renewable energy technologies and their integration into the energy system
€86mio
• Development of land-based renewable energy technologies and their integration into the energy system €18mio
• Demonstration of innovative technologies to enable future large scale deployment of offshore renewable energy €68mio

2.2 Develop and demonstrate a 100 MW electrolyser upscaling the link between renewables and commercial/industrial applications €60mio

2.3 Accelerating the green transition and energy access Partnership with Africa €40million
The Green Deal Call Topics – II

Area 3 - Industry for a clean and circular economy

3.1 - Closing the carbon cycle to combat climate change €80million
3.2 - Demonstration of systemic solutions for the territorial development of circular economy €60million

Area 4 - Energy and resource efficient buildings

4.1 Building and renovating in an energy and resource efficient way €60million

Area 5 - Sustainable and smart mobility

5.1 Green airports and ports as hubs for sustainable and smart mobility €100million
The Green Deal Call Topics - III

Area 6 - Farm to fork

6.1 - Testing and demonstrating high impact innovations to address food system challenges in a place-based context  
\[ \text{€74million} \]
- 6 areas for demonstration projects along a value chain from primary production to dietary habits

Area 7 - Biodiversity and ecosystem services

7.1 - Restoring biodiversity and ecosystems services  
\[ \text{€80million} \]
- Focus on scaling-up / replicating innovative solutions to restoration

Area 8 – Towards zero-pollution, toxic-free environment

8.1 - Mitigating the effects of persistent and mobile chemicals  
\[ \text{€40million} \]
8.2 Fostering regulatory science to address chemical and pharmaceutical mixtures  
\[ \text{€20million} \]
The Green Deal Call Topics – IV

Area 9 - Strengthening our knowledge in support of the European Green Deal

9.1 European Research Infrastructures capacities and services to address EGD challenges €28million

- Support Europe leadership in clean energy storage technologies €7m
- Enhancing European research infrastructures for greenhouse gases observation in and around cities €13m
- Enhancing observations for air quality and citizens’ health in urban areas €8m

9.2 - Developing end-user products and services for all stakeholders and citizens, supporting climate adaptation and mitigation €25million

9.3 - Towards a digital twin of the Ocean €12million
The Green Deal Call Topics – V

Area 10 - Empowering citizens for the transition towards a climate-neutral, sustainable Europe

10.1 European capacities for citizen deliberation and participation for the Green Deal €10million

10.2 Behavioral, social and cultural change for the Green Deal €10million

10.3 - Enabling citizens to act on climate change through education, monitoring of their environmental impacts, and civic involvement €25million
Green Deal Call – timeline

**Finalisation of Call**
- Ongoing work
- Launch of internal approval early July
- Formal adoption mid-September
- Open communication about progress

**Proposal writing**
- R&I days 22–24 September as ‘meeting and partnering’ opportunity
- Deadline for project proposals end January

**Evaluation to projects’ start**
- Evaluation spring 2021
- First projects to start summer 2021
- Projects have to sign agreements by 31/12/2021
Research and Innovation Days 22–24 Sept

Now fully virtual event

Matchmaking event for the Green Deal Call
– also in October more business oriented ones
Thank you

<td>&gt; Job advertisement</td>
</tr>
</tbody>
</table>

Looking for the best match!
Example of LC-CLA-11-2020 Innovative nature-based solutions for carbon neutral cities and improved air quality

Actions should enable the continuous monitoring of air pollution and atmospheric carbon concentration and thus contribute to improvement of relevant modelling capacity, deploying indicators enabling easy assessment, communication, comparison and sharing of best practice on the ground as well as digital solutions comprising networks of sensors, big data, geo-localisation, observational programmes such as Copernicus (and in particular the Copernicus Atmosphere Monitoring Service and the Climate Change Service with their value added products and information) and GEOSS, satellite navigation and positioning services offered by EGNOS/Galileo, and citizens’ observatories.

An interdisciplinary approach, including citizen science and the participation of applied natural sciences, social sciences, data science and humanities disciplines (such as behavioural economics, gender studies, urban planning, design and governance) is considered crucial to properly address the complex challenges of this topic.

**Topic conditions and documents**

1. **Eligible countries**: described in Annex A of the Work Programme. A number of non-EU/non-Associated Countries that are not automatically eligible for funding have made specific provisions

2. **Eligibility and admissibility conditions**: described in Annex B and Annex C of the Work Programme.

To ensure coverage of environmental, geographic, socio-economic and cultural diversity across the EU, consortia must commit to proposed innovative actions/schemes during the project and to assess their impacts and cost-efficiency in addressing air pollution.
## Cross-cutting: international cooperation

<table>
<thead>
<tr>
<th>Topic</th>
<th>international cooperation</th>
</tr>
</thead>
<tbody>

UK Participation in Horizon 2020 Green Deal

- UK organisations are fully eligible to participate and receive funding in Green Deal Call.

- **European Commission:**
  The Withdrawal Agreement, as agreed between the European Union and the United Kingdom, entered into force on 1 February 2020. In overall terms, on the basis of the Withdrawal Agreement, the UK-based legal entities will continue to be **fully eligible to participate and receive funding in the current 2014-2020 EU programmes, including Horizon 2020, as if the UK were a member state until the closure of these programmes**, unless security considerations apply. This means that UK beneficiaries can continue – without interruption – to receive grants awarded under the current and previous multiannual financial frameworks (MFFs) until their end dates, even if these are after 2020.

- For any questions around this, or for help identifying possible UK partners, please contact Stephen Alexander, the UK National Contact Point for Legal and Financial matters
  [stephen.alexander@innovateuk.ukri.org](mailto:stephen.alexander@innovateuk.ukri.org)
Tips for presenting your partner offer

• Keep it short, simple and with keywords
• Be precise > Link your expertises or past experiences to the topic text
• Sell your expertise > why should a consortium/partner choose you?
• Be coherent with your objective
Can we join several consortium?
Yes

- for instance to valorise different expertises

But
- Financial and operational capacity to join several selected consortia
- Trust issue
- Reputation issue
Different channels to look for partners

1) Your personal network
2) Enterprise Europe Network
3) NCPs CaRE Partner Search Tools
4) Other NCP Networks
5) Partner search on Funding & Tender Portal

➢ Recommended combination but be coherent
1) Your personal network

⇒

Trusted relations
2) Enterprise Europe Network

The world’s largest support Network helping ambitious SMEs innovate and grow internationally

- Not just for SMEs!
- Several tools available
  - ✓ Partner Search Opportunity Database
  - ✓ Brokerage events
  - ✓ Informal contacts for your local EEN adviser
2) EEN – a) Partnership Opportunity Database

Brokerage event targeted for SSH

7/10/2020

Virtual Brokerage Event: SSH in the Green Deal Call

To foster opportunities for cooperation in the Horizon 2020 Green Deal Call, Net4Society organises a Virtual Brokerage event, focused on topics relevant for researchers from the Social Sciences and Humanities.

This event is foreseen to take place on 7 October 2020 (tbc) and will focus on the following topics of the Green Deal call which have been identified as relevant for actors from the diverse disciplines of the Social Sciences and Humanities.

Area 1: Increasing Climate Ambition: Cross sectoral challenges

- LC-GD-1-2-2020: Towards Climate-Neutral and Socially Innovative Cities
- LC-GD-1-3-2020: Climate-resilient Innovation Packages for EU regions

Area 4: Energy and resource efficient buildings

- LC-GD-4-1-2020: Building and renovating in an energy and resource efficient way

Area 9: Strengthening our knowledge in support of the EGD

- LC-GD-9-1-2020: European Research Infrastructures capacities and services to address European Green Deal challenges
- LC-GD-9-3-2020: Transparent & Accessible Seas and Oceans: Towards a Digital Twin of the Ocean

Area 10: Empowering citizens for the transition towards a climate neutral, sustainable Europe

- LC-GD-10-1-2020: European capacities for citizen deliberation and participation for the Green Deal
- LC-GD-10-2-2020: Behavioural, social and cultural change for the Green Deal
- LC-GD-10-3-2020: Enabling citizens to act on climate change, for sustainable development and environmental protection through education, citizen science, observation initiatives, and civic engagement
5) Partner search on Funding & Tender Portal
